California SDWSRF 2004 IUP Correlation to U.S. Environmental Protection Agency Strategic Plan Goals and Objectives

California SDWSRF program supports the National Strategic Plan Goal 2, Objective 1, Sub-objective 1 listed below. Specifically, California has established and is managing the SRF to make low cost loans and other types of assistance to water systems by financing the cost of infrastructure projects to achieve or maintain compliance with SDWSA requirements.

California SDWSRF activities support USEPA program reporting code (PRC) 201B81E.

Each summer, as part of each IUP, California and USEPA negotiate California's Strategic Plan commitments for the State Fiscal year starting July 1.

Strategic Plan Goal No. 2: Clean & Safe Water

Strategic Plan Objective No 2.1: Protect Human Health

Protect human health by reducing exposure to contaminants in drinking water (including protecting source waters) in fish and shellfish, and in recreational waters.

Strategic Plan Subobjective No 2.1.1 Water Safe to Drink:

By 2008, 95% of the population served by community water systems will receive drinking water that meets all applicable health based drinking water standards through effective treatment and source water protection

All planned and prior year loans have assisted public water systems in meeting the federal and state drinking water compliance requirements. Details of California's SDWSRF activities supporting the National USEPA Strategic Plan will be included in the annual report published in January of each year.
